SUMMARY

Results-driven **iOS & Flutter Developer** with **3 years** of experience in designing, developing, and deploying high-quality mobile applications for iOS and Android. Skilled in **Swift**, **SwiftUI**, **Flutter**, and modern mobile frameworks to build efficient, scalable, and visually engaging apps. Experienced in native iOS development, cross-platform solutions, secure authentication, **local database management**, and **machine learning-powered** mobile features. Passionate about creating innovative mobile experiences with strong attention to performance, usability, and design excellence.

LIVE - PROJECTS

Evolv Solutions

Flutter | Swift | Camera | Machine Learning | Hive | Offline Mode | Tflite | Google Sign In | Platform channels native | Github
Created a modern vehicle inspection app with machine learning-powered camera capture, secure authentication, and efficient database management for offline workflows.

Indopin (iOS, Android, Website)

Flutter | Node.js | React js | Push Notifications | WebSocket | GraphQL | Firebase
Developed a cross-platform business management app with real-time billing, inventory tracking, and vendor communication.

Daylight

SwiftUI | GraphQL | Firebase | Intercom | Push Notifications | Apple Sign-In | Deep Linking
Created a modern iOS app with secure authentication, push notifications, and personalized user experiences.

Interpretrain

Storyboard | Firebase | SDWebImage | Push Notifications
Enhanced an educational platform with optimized content delivery and real-time notifications.

Digicat Jewelry IT

Storyboard | Firebase | SDWebImage | Bitbucket | Core Data
Developed a jewelry management solution supporting local data storage and media handling.

Jewelry ERP

SwiftUI | MVVM | Firebase | Push Notifications
Implemented an ERP system for jewelry manufacturing to manage production and workflow automation.

Testpaper Live

SwiftUI | MVVM | SDWebImage | TPAVPlayer | Firebase | Bitbucket | Deep Linking
Created an e-learning platform for medical students with video playback and deep linking features.

EXPERIENCE

Flutter Developer & iOS Developer [THE WHOLE DIGI DOODLE SOFTWARE PVT.LTD](#)

9 Feb 2026 – Present | Jaipur, Rajasthan

- Developed and deployed multiple Flutter and native iOS applications using Flutter, Swift, and SwiftUI with a strong focus on performance and user experience.
- Built a vehicle inspection app with machine learning-powered image processing using TFLite, camera integration, REST APIs, and offline local database management with Hive.
- Developed a document scanner and image processing app featuring OCR functionality, PDF generation, image resizing, and advanced camera-based workflows.

iOS Developer & Flutter Developer [Arthonsys Technologies LLP](#)

18 May 2023 – 22 Oct 2025 | Jaipur, Rajasthan

- Involved in the complete app development lifecycle, from concept to App Store & Play Store deployment.
- Worked on major integrations including **Firebase, Push Notifications, Apple Sign-In, and GraphQL**.
- Collaborated closely with UI/UX and backend teams to deliver scalable and high-performing applications.

iOS Developer | [Web Code Master](#)

Oct 2022 – May 2023 | Jaipur, Rajasthan

- Contributed to creative and high-quality iOS applications under the guidance of senior developers.
- Gained hands-on experience in app architecture, animations, and UI/UX improvements.
- Participated in various innovative projects focused on user engagement and performance optimization.

EDUCATION

Bachelor of Computer Applications (BCA)

University of Maharaja College, Jaipur, Rajasthan

Graduation: June 2023

Senior Secondary (12th - Humanities)

AN Public School, Jaipur, Rajasthan

Completed: March 2020

TECHNICAL SKILLS

Languages & Frameworks:

Swift, SwiftUI, Flutter (Provider, GetX, REST API), Node.js (GraphQL),

iOS Technologies:

Core Animation, UIKit Animation, Core Data, API Integration, Push Notifications

Flutter Technologies:

Firebase, WebSocket, WebRTC, Hive, TFLite, GraphQL, Push Notifications, State Management (Provider, GetX), API Integration, Responsive UI Design

Architecture Patterns:

MVC, MVVM

Tools & Platforms:

Firebase, Bitbucket, Github, Figma (Mobile & Web Design),

Testing:

Unit Testing, UI Testing
